

## KKR Announces Intra-Quarter Monetization Activity for the Third Quarter

## September 22, 2020

NEW YORK--(BUSINESS WIRE)-- KKR today announced a monetization activity update for the period from July 1, 2020 through September 21, 2020. Based on information available to us as of today, with respect to the period through September 21, 2020, KKR has earned gross realized carried interest and total realized investment income of approximately \$435 million. This is driven primarily by strategic and secondary sale transactions that have closed quarter to-date, as well as dividend and interest income from KKR's balance sheet portfolio.

The estimate disclosed above is not intended to predict or represent the total revenues for the full quarter ending September 30, 2020, because it does not include the results or impact of any other sources of income, including fee income, or expenses. This estimate is also not necessarily indicative of the results that may be expected for any other period, including the entire year ending December 31, 2020.
